The Cambridge Office

Sinclair Research Limited, 25 Willis Road, Cambridge CB1 2AQ

Tel No: 0223 353204

Telex: 81609

Gill Ball

Receptionist/Administration Assistant:
Cambridge Office

Gill receives visitors to Willis Road, and answers general customer queries. She carries out general typing duties and books hotels and taxis. She also helps Judith Hooper with any administrative matters which need attending to. Before joining Sinclair Gill worked at the Garden House Hotel as a receptionist after completing a one year course at Letchworth College in Hotel Reception. Her hobbies include all sports and travelling abroad.

Tracey Beale

Marketing Department Assistant: Cambridge office

Tracey deals with the administration of the Marketing Department, working for Jane Boothroyd and Alison Maguire. Before joining Sinclair, Tracey worked for 3 years in a building company, and did some temporary receptionist and secretarial work.

Jane Boothroyd BSc Psychology and ancillary Pure Maths

Marketing Manager : Cambridge office

Jane is involved in developing our market for software, co-ordinating our business with UK retail outlets, general sales administration and the organisation of exhibitions.

She previously worked as brand manager of food products, including Colman's Mustard, with Reckett & Colman in Norwich. Before this Jane worked for R & C Group as a Corporate Personnel Assistant based in London.

Ruth Bramley BSc (Pure Mathematics)

Cambridge office

Ruth is working for Chris Cowsley and the two Daves (Chatten and Fuller), summarising and analysing the faults discovered in Spectrums serviced by TV Services. She also spends time on ad hoc analytical projects identifying patterns derived from the same servicing data.

Ruth is responsible for maintaining our literature library and for updating and distributing the catalogue. Ruth is also acting as the contact for retailers with regard to staff training on our products.

Before joining Sinclair, Ruth worked as a programmer (COBOL) with a small software house in Coventry writing business programs (e.g. stock control, ledgers, purchase orders, etc.) on Honeywell Level 6 computers.

Martin Brennan BA Physics

Computer Engineer : Cambridge office

Martin joined Sinclair in 1982 to work on advanced computer designs.

Since leaving university in 1978 he has worked with Racal as a Physicist, with Scicon as a microprocessor engineer and with GP Elliotts as a software/hardware engineer on high reliability systems.

He is interested in artificial intelligence and feels that while computers need to be programmed by humans we are still in the dark ages.

Sharon Butcher

Purchase Ledger Clerk: Cambridge office

Sharon works with Lyn Whitehall. Her work involves receiving and registering invoices, chasing people for authorisation, writing up the ledgers, raising cheques, and generally keeping the purchase side of the accounts department running smoothly.

Prior to working for Sinclair, Sharon worked for Heffers the stationers, in their accounts department.

She works in a pub in the evenings, and shares a hectic life with 5 other girls in a house in Cambridge.

Susan Campbell

Production Assistant: Cambridge Office

Sue keeps a record of all stocks held at GSI, she also monitors production/shipment figures from Timex and Thorn to GSI. She also has responsibility for looking after the company library.

Prior to working for Sinclair, Sue did some temping after completing a course at secretarial college.

Her hobbies include water skiing, reading and hunting.

David Chatten

Production Director: Cambridge Office

Dave is responsible for all aspects of production control, and particularly for the Tube and TV projects.

Ben Cheese

Electronic Design Engineer: Cambridge office

Ben is developing the Microdrive hardware.

Previously he worked at the Mill, supervising the construction of Printer Test Equipment for Timex.

Roger Clarke B.A.(Hons)

Project Designer: Cambridge office

Roger has been brought in to work on Spectrum related and other case design projects.

He graduated from Newcastle Polytechnic, with 2.1 honours in Industrial Design. Since then, he has worked in Northumberland for a company producing gas detection instruments, and has recently migrated South !

Gillian Copping

Alison Maguire's Secretary: Cambridge Office

Gillian provides secretarial backup for Alison Maguire. Before joining Sinclair she spent 18 months with Transdata Ltd, a small computer firm in London. Prior to this she worked for a Professor of Welding Technology at Cranfield Institute of Technology.

In her spare time her hobbies include cycling and camping.

Charles Cotton BA Physics

Overseas Business Manager: Cambridge Office

Responsible for export sale of Sinclair's computer products and developing joint ventures in overseas markets. Charles previously worked in the motor industry both for Ford and British Leyland in a variety of sales, marketing, planning and finance positions. Most recently he was Overseas Operations Director for Leyland Trucks.

Charlie Coulson

Caretaker: Cambridge office

Charlie is mainly responsible for the maintenance of Willis Road, and acts as caretaker for the building.

He began work in private service and trained as a footman/valet. He joined the RAF in 1939, and served in the African and Italian campaigns. He later worked for British European Airways, and Cambridge Consultants.

Charlie worked for Sinclair Radionics for over six years, taking charge of maintenance, and has spent the last four years designing and constructing long case clocks. He was also involved in sheet metal fabrication.

Chris Cowsley

Head of Manufacturing (Computers):
Cambridge office

Chris's responsibility encompasses both the factory aspect of the computer division, and the laboratories here in Cambridge.

Before joining Sinclair, he worked for ICL for 12 years, at their headquarters, and in manufacturing and development posts.

Janet Cronk B.Sc. (Hons) Geography

Assistant Financial Controller: Cambridge office

Janet assists Peter Saxton with all aspects of the work in the finance department.

In addition to the main tasks, she is currently supervising the Sales Ledger, including Credit Control. She is also responsible for production of the monthly accounts.

Prior to working for Sinclair, Janet worked for a firm of accountants in Cambridge, and before that, for Stoy Hayward in London.

In the little spare time she has left, Janet enjoys sailing, and she and Peter often crew for each other !

Richard Cutting MA

Director of MetaLab: Milton Hall

Richard joined the company in July 1983 to take responsibility for the establishment of MetaLab at Milton Hall.

MetaLab will be the research and development centre for all non-computer products as well as longer term projects in computing.

Prior to joining the company Richard was Managing Director of Cambridge Consultants for 12 years, during which time it grew to a 150-strong company doing contract research for a wide variety of clients.

Richard is married with two sons, one stepson, a push bike and an XJS.

Sandra Dale BA (Hons) French and Business Studies

Export Assistant: Cambridge Office

Sandra joined the export department at the beginning of July 1983 having just completed a one-year linguist secretarial course.

As Export Assistant she is constantly liaising with foreign distributors. Her work also involves small amounts of secretarial work but is mainly concerned with export procedures associated with orders.

Her outside interests are hockey, tennis and swimming and she also enjoys singing.

Richard Dickinson

BA(Hons)DipSIAD

Industrial Designer: Cambridge office

Rick designs the appearance of our products' shape, colour, graphics, ergonomics, injection mouldings, metal pressings, packaging, mechanics, components requiring custom tooling, books, instructions, models, artwork, component drawings, specification and use of material, etc.

Rick graduated with first-class honours in industrial design and engineering and practised as a freelance designer somewhere in Wales before joining Sinclair Research in 1979 as product designer, graphic designer and design draughtsman.

David Fuller

MA (Engineering, Oxon), MBIM
Quality Manager: Cambridge Office

David is responsible for quality assurance. This involves monitoring quality aspects of sub-contract work, both by regularly visiting and by means of a small inspection team at our main warehouse. He also has responsibilities for servicing and repair and the ordering of spares for repair facilities in the U.K. and overseas.

Before joining Sinclair, David spent 16 years as an Electronic Engineer in the RAF. Subsequent to this he was Quality Manager/General Manager for the Aviation Division of BOC – International.

Mary Goodman

Secretary to Chris Cowsley: Cambridge Office

Mary provides general secretarial back up to Chris Cowsley. She previously worked in Sinclair's Customer Relations and Marketing Departments, and then as secretary to Clive. Her hobbies include horse riding, swimming and tennis.

Felicity Hill

Secretary to Charles Cotton and Heather McInroy
Cambridge Office

Felicity joined Sinclair straight after completing a Senior Secretarial course at college. She joined as a temp and was then taken on permanently, working in the Export Department as Charles Cotton and Heather McInroy's secretary. Her hobbies include dressmaking and reading.

Adrian Hoodless Chartered Engineer

Integrated Electronics Designer: Cambridge office

Adrian is at present designing and developing the integrated circuitry for the flat screen TV. Cost benefit trade-offs have to be established and a close liason kept with sub-contractors to ensure that the project is developed along the correct lines. Adrian has previously worked at Texas Instruments in Bedford, Mullard in Southampton and Marconi in Chelmsford. With each of these companies he worked on developing integrated circuits for a whole variety of applications-colour TVs, radios, domestic appliances, cameras, etc.

Judith Hooper B.A., A.C.M.A.

Personnel/Administration Manager :
Cambridge office

Judith is responsible for the smooth running of the Willis Road offices. This involves maintenance work, catering, stationery supplies etc. She is also responsible for recruitment, and other personnel matters.

Prior to joining Sinclair, Judith worked for a small firm manufacturing Hi-Fi equipment, in Cambridge. She previously worked for Cadbury Schweppes in Birmingham, as an accountant.

Irene Hughes

Word Processor Operator : Cambridge office

Irene joined Sinclair in July 1982 as a word processor operator and to generally help out with audio typing and sending telexes.

Before coming to Cambridge, Irene spent 10 years living and working in Buenos Aires, Argentina. She spent some time as a secretary in the Teaching English as a Foreign Language Department.

Sara Johns

Customer Relations Assistant : Cambridge office

Sara deals with all aspects of 'keeping the customer satisfied'. This is done both by letter and telephone. All kinds of problems arise with mail order customers – some completely unique, some recurrent.

She previously worked as a jewellery consultant in Selfridges in London. She has also worked as a senior clerical officer in Camberwell Unemployment service, where she gained a great deal of experience with irate customers !

Jan Jones B.Sc. Mathematics

New Systems Software: Cambridge Office

Jan is helping with the development of new systems software for future computer products. Prior to this, she worked at the Computer Aided Design Centre, and before that, with ADP Network Services.

David Karlin

Electronic Engineer: Cambridge office

David joined Sinclair in August 1982 to work on computer hardware.

He has previously worked on integrated circuits for Fairchild Semiconductor in Singapore and in California, and on computer hardware and software for the Royal Signals and Radar Establishment in Malvern.

Karen Laurence

Telephonist/Typist: Cambridge Office

Karen handles all the incoming calls to the Cambridge Office. She receives calls from all over the world covering all kinds of customer queries.

She also carries out typing duties and helps with ordering taxis and arranging deliveries.

Prior to working for Sinclair she was a telephonist/receptionist for a book publisher for 2½ years.

Karen's hobbies include cooking foreign dishes, reading and decorating.

Barbara Lohoar BSc (Economics & Politics)

Customer Relations Assistant: Cambridge Office

Barbara deals with all aspect of customer problems by phone and letter.

Before joining Sinclair in Cambridge, Barbara had worked on our account at GSI Jaserve in Camberley.

Alison Maguire MBCS

Software Manager: Cambridge office

Alison joined Sinclair in January 1983 to co-ordinate the acquisition of third party software. This includes activities such as evaluating software sent in to us, seeking out software which may be suitable for conversion, and acquiring educational software for the Spectrum in primary schools.

Before joining Sinclair, Alison spent eleven years in systems development, working for Shell as a freelance contract programmer, for LRC Products, and for CSS International, where she spent two years as a professional services consultant, and one year managing and selling to their large accounts.

Alison is married with two daughters, and has pursued an active second career acting in a repertory company. Other interests include singing opera and dancing.

John Mathieson

BA Hons (Cantab)

Computer Engineer. Cambridge office

John graduated in June 1981 and joined Sinclair in December 1981 to work on software. He worked on the development of the Spectrum and its launch. He is responsible for liaison with the Timex Computer Corporation and ICL as licensees of Sinclair computer technology, and is involved in the development of peripherals for the Spectrum.

He is also involved in technical software support with Alison Maguire.

John previously worked at Ferranti for six months, between school and university.

Bill Matthews

Finance Director : Cambridge office

Bill has overall responsibility for finance, personnel and administration.

Bill joined Sinclair from the Hoerbiger Group, where he was executive vice-president based in Houston. Prior to that he spent 8 years as a management consultant with Price Waterhouse Associates in Toronto. He began his career as a product group accountant with ICL and subsequently became financial controller at Sony UK.

Peter Maydew

Research Engineer: Cambridge office

Peter has rejoined Sinclair to work on the design and development of the flat screen TV.

He first joined Sinclair Radionics service department in 1973, where he worked as chief service engineer on hi-fi and digital multimeters. After this he moved to the research department to develop the Microvision TVs and the flat TV tube. Later with Sinclair Research, Peter helped with the ZX80, the RAM pack, the printer and again on the flat TV tube.

He has recently rejoined Sinclair after 6 months as technical editor for the Electronics and Music Maker magazine.

Heather McInroy BA (Hons.) AIL

Export Manager: Cambridge Office

Heather joined the Export Department in August 1982, and liaises with distributors worldwide.

She holds a degree in French and Italian from London University and has recently completed a one year post-graduate course specializing in interpretation and translation. Heather has also obtained the RSA Diploma for Linguist Secretaries.

Roger Morris

PA to Nigel Searle: Cambridge Office

Roger provides administrative and secretarial support for Nigel Searle, and also looks after personnel and administrative matters. His previous employment was as Office Manager. His hobbies include painting, (canvasses as opposed to walls) art, music, reading and DIY, which generally precludes his other more leisurely hobbies.

John Munford

Project Manager: Cambridge Office

John's main responsibility is for project planning and co-ordination during developments and the introduction into manufacture of computer products.

John was previously with the Foreign Service Staff of Cable and Wireless Ltd, Marconi Space and Defence Systems Ltd and most recently, Crosfield Electronics Ltd working on computerised printing systems.

Mike Neale BSc CEng MIEE

Electrical Engineering

TV. Engineer: Cambridge Office

Mike has joined Sinclair to work on the design and development of the flat screen TV. His main area of interest will be the design of the radio frequency sections of the TV integrated circuit.

Mike graduated from UCNW Bangor, in 1975, and has previously worked at ITT's European Research Centre, where he was responsible for the design of a variety of radio frequency components and equipment for both military and commercial applications.

David Park

Educational Marketing : York & Cambridge office

David co-ordinates the company's efforts to penetrate the education market. This involves liason with our educational distributors, education authorities, head teachers and many other individuals who are part of the education network.

David has previously acted as Sales Manager at Sinclair Radionics, St Ives (1970-1979), and as Product Manager in a steel fabrication company (1979-1981) specialising in dedicated mobile facilities (loos, outside broadcast units, weapons systems, workshops, etc.)

Petula Phillips

Post Clerk: Cambridge Office

Petula deals with all incoming and outgoing post, sorting, distributing and filing. She also handles deliveries involving Securicor, sends telexes and carries out some typing duties. In her spare time she enjoys running, squash, tennis and reading.

Jill Salvesen

Secretary to Production department:
Cambridge office

Jill looks after the production managers, and the Production Director. This involves all the normal secretarial duties, and generally keeping them in check !

She previously worked as a chef, and recently returned from three months in France, where she improved her knowledge of catering and French.

Peter Saxton BSc ACA

Financial Controller: Cambridge office

Peter is responsible for the preparation and presentation of the statutory and internal financial reports of the company. He also generally supervises the Accounts Department.

Peter previously worked for Deloitte, Haskins & Sells, the company's auditors.

Nigel Searle BA Mathematics and Computer Science, PhD Mathematics

Managing Director : Cambridge office

Responsible for all aspects of Sinclair's computer business, Nigel has worked for Sinclair in various capacities since 1972. From January 1980 to February 1982, he ran Sinclair Research Limited in the USA.

Before coming to Sinclair, Nigel was a project leader with Cambridge Consultants.

Tony Tebby

Systems Designer: Cambridge office

Tony works on the development of software for future computer products.

Before Sinclair, he worked at the Hurst Research Centre and in various Philips organisations. He latterly opted for a life of ease at the Computer Centre in Cambridge working on software systems.

Kevin Thomas

Assistant Accountant: Cambridge office

Kevin assists in the running of the Accounts Department, being responsible principally for cash and wages.

Aaron Turner BSc (Hons)

Computer Engineer: Cambridge Office

Aaron joined Sinclair in July 1983 immediately after leaving QMC with a 2.1 in Computer Science. Previously he worked for microcomputer dealers during vacations.

He is interested in advanced computer systems, specifically those exploiting highly concurrent architectures. At the moment he is writing the IPC software for the ZX83, and also making an appraisal of various candidate future systems for Nigel Searle.

His hobbies include running a mobile disco and playing the drums.

Jim Westwood

Research & Development Director:
Cambridge office

Jim is responsible for developing the flat screen TV electronics, especially the tuner. He also oversees the electronic developments of all computer hardware and peripherals.

He joined Sinclair Radionics Ltd in 1963 and worked on the electronic development of most products – radios, amplifiers, calculators, microvision TV.

Jim's employment transferred to Sinclair Research in 1979. He was involved in project management and the development of hardware and display system of the ZX80 personal computer. He designed the master chip for the ZX81, the animated display system and design of the RAM pack.

Lyn Whitehall

Purchase Ledger Supervisor: Cambridge office

Lyn looks after all aspects of the purchase ledger. This includes writing up the ledgers and the cash book, raising cheques, clearing supplier statements, etc.

She is also involved in transferring the manual ledgers onto the new computer just acquired by the accounts department.

Previously, Lyn worked in London, for B. Brinkmann, as a computer room supervisor.

When not working for Sinclair, Lyn is busy re-building her cottage near Newmarket.

The London Office

INDEX

Diana Cullingworth

Sue Lock

Bill Nichols

Bill Sinclair

Clive Sinclair

Liz Walker

London

The London Office

Sinclair Research Limited, 23 Motcomb Street, London SW1X 8LB

Tel No: 01-235 9649

Telex: 918966

Diana Cullingworth

Secretary to Clive Sinclair/Motcomb Street

Dee joined Sinclair in August 1983 from the Greek Embassy where she had been private and social secretary to the Greek Ambassador since 1978. Earlier she had been office manager and PA at a London advertising agency and had spent three years in Johannesburg at a large South African holding company.

At Sinclair, Dee acts as personal secretary to Clive. Her personal interests include sailing and squash.

Sue Lock

Receptionist and PR Dept.
Secretary/Motcomb Street

Sue Lock assists the PR department with everything from answering the phones through processing the information sent out to interested media.

She joined Sinclair in July 1983. Former work experience includes Bryant and Bryant Ltd., a London public relations agency where she was part of the start-up team.

In her off hours, Sue promotes rock bands in London and enjoys watching American baseball.

Bill Nichols BA (Hons) MA (English Language, Durham)

Public Relations Manager: Motcomb Street

Bill is responsible for Sinclair's UK and overseas public relations' activities, and the running of the Motcomb Street office. He joined the company in May 1982 from Daniel J. Edelman, where he ran the agency's technical group which included the Sinclair Research account. Prior to that he worked in the public affairs department of Powell Duffryn Limited handling corporate and financial PR assignments.

Bill Sinclair

Consultant: London office

Bill is acting as our overseas marketing consultant and advises on marketing strategies and the selection of foreign distributors.

Clive Sinclair

Chairman : London office

Clive founded Sinclair Research in July 1979 to conceive and develop new products in the consumer electronics field. Clive is actively involved in the management of the computer business and in the strategic planning for its direction in the future. He also directs the development of all new consumer electronic products – the flat screen TV, the integrated workstation, the electric car and no doubt a few more.

Clive's interests outside Sinclair Research include his publishing company, Sinclair/Browne, his chairmanship of the British Mensa Society, music and his work as a trustee of the Cambridge Symphony Orchestra, theatre, poetry, mathematics and jogging.

Liz Walker

Assistant, Public Relations: London office

Liz assists Bill Nichols on all PR matters. Her work involves maintaining daily media contacts, arranging competitions and press reviews etc. She joined Sinclair from the Daniel J. Edelman PR agency in May 1982 where she spent three years, as secretary and subsequently assistant executive in the industrial and technical PR groups.

The Mill, St. Ives

INDEX

Mervyn Alston

Shirley Bell

Walter Davey

Bill Denne

Ian Poskitt

John Simonds

David Southward

Robert Venn

John Williams

Lindsey Woodley

The Mill, St. Ives

**Sinclair Research Limited, The Mill, 50 London Road, St. Ives,
Cambridgeshire**

Tel No: 0480 61222

Telex: 32250

Mervyn Alston

Chemical Laboratory Manager : St Ives Mill

Mervyn is currently engaged on problems and procedures associated with the chemical aspects of the flat tube. This includes screen application, preparation and application of emissive coatings, thick film printing, treatment of piece parts, electroforming, frit sealing and photographic work in connection with the flat tube.

Background – since 1947 R&D on radio valves, monochrome and colour cathode ray tubes. Last twelve years on colour tubes in conjunction with Sylvania and RCA. Joined Sinclair Radionics in 1976 to work on the flat tube.

Shirley Bell HNC Applied Physics

Research Technician: St Ives Mill

Shirley helps manufacture and test the pilot plant TV tubes, i.e. silk screening bases, metallising covers. She researches the ageing and life patterns of the tubes and conducts various experiments as the need arises. She assists with making electronic equipment. Shirley previously spent 6 years at the Royal Aircraft Establishment, Farnborough. She joined Sinclair Radionics (Service Dept - calculators) in 1972 and spent several years in the Reliability Department (Radionics) before joining this project in 1978.

Walter Davey

HND in Electrical and Electronic Engineering,
CEI Part 11 Senior Electronic Engineer: The Mill

Walter designs, produces and maintains test and experimental equipment and any other equipment required.

Previous employment-Pye TVT, as test engineer, later as development engineer. Torvac, as Senior Engineer. More lately, the system design of Radio Telemetry Systems for the control of loading and unloading equipment installed on oil rigs, tankers and buoys. This was with Oceantech in London.

Bill Denne

BSc Chemistry, PhD Crystallography, DSc X-ray Physics

Innovator : St. Ives Mill

Bill has designed a new high speed printer mechanism and has joined Sinclair to develop this device into a commercial product.

After many years of academic work in Australia, Bill returned to the UK to pursue more applied research in Medical Engineering. This was followed by a period of marketing intelligent financial terminals for Datatrol Inc. prior to setting up a technical design and development consultancy.

Outside interests include bellringing, flying and a fascination with sophisticated simplicity in all aspects of design.

Ian Poskitt

Design Engineer: The Mill

Ian is involved in research and development in glassware production for Cathode Ray Tubes.

Previously he worked as an electrical designer for a firm making machinery for the glass industry.

John Simonds

Technical Engineer : St Ives Mill

John was originally employed by Clive Sinclair eleven years ago on the Liquid Crystal Project, but in the last few years he has been actively involved in the Flat Screen Tube work. His work includes making up prototypes, models, moulds, jigs, tools and accessories for these, using a wide variety of engineering techniques.

John served an apprenticeship as an Instrument Maker at the Department of Engineering, University of Cambridge. During service in the Department he became involved with high vacuum techniques; and later after leaving the Department of Engineering was employed by a private research and development company.

David Southward MA Chemical Engineering

Director : St Ives Mill

David joined the company in 1977 when it was known as Sinclair Radionics. He is now responsible for all projects tackled at the Mill – development of the flat TV tube, the printer, etc. This includes establishing the appropriate production techniques of each product. Prior to joining Sinclair, David co-founded and acted as Managing Director of Cambridge Consultants. He also worked on electron beam microfabrication and blood analysis equipment at the Cambridge Instrument Company.

Robert Venn BSc

Development Engineer: St Ives Mill

Robert is currently engaged on the development of the flat cathode ray tube systems.

Background – ex Smith Industries Electronic Products Unit Chief Chemist working on development of thin film and powder. Direct current electro-luminescent display devices for motor vehicle dashboard application.

John Williams

BSc Mechanical Engineering

Design Engineer: St Ives Mill

John is currently engaged with mechanical and mechanism design for Sinclair products and for assembly equipment. He has worked mainly on the flat tube project and more recently on the ZX Printer.

Background – previously with BAC (Stevenage) and Pye Unicam (Cambridge).

Lindsey Woodley

Research Assistant, Orders Clerk and Typist:
The Mill

Lindsey prepares and assembles electrodes to make electron guns. She prepares and welds the cathode. In addition to this Lindsey orders and processes all purchases at the Mill plus any other typing e.g. reports etc. She generally assists with other processes such as wiring and soldering whenever needed. Previously employed with Sinclair Radionics as Process Controller on the calculator and TV lines.

The Winchester Office

INDEX

Graham Beesley

Michael Pye

Jenny Yarwood

Winchester

The Winchester Office

**Sinclair Research Limited, 29 Southgate Street, Winchester,
Hampshire SO23 9EB**

Tel No: 0962 55925

Graham Beesley MA (CANTAB)

MIERE CEng (BA Hons Electrical Science 1972)

Senior Electronics Engineer: Winchester office

Graham's work is concentrated mostly on semiconductor based products.

Before joining Sinclair Graham spent 7 years with Motorola in Basingstoke. Prior to this he was with UMIST for 3 years working in design and development of specialised instrumentation for Cloud Physics.

Michael Pye MA, CEng MIEE

Director of Sinclair Research in Winchester:
Winchester office

Michael is responsible for the design and development of semiconductor based consumer products.

Prior to joining Sinclair at the beginning of 1982, Mike was Director of Engineering for Honeywell Control Systems Ltd. He has also been Technical Director and Managing Director of Sinclair Radionics Ltd and Director of Electronic Development for the Gillette Company in the USA.

Jenny Yarwood

Secretary/P.A : Winchester office

Jenny works as secretary/PA to Mike Pye and also gives secretarial support to Graham Beesley. Her duties include taking incoming calls and receiving visitors. She is also responsible for general accounting duties.

Before joining Sinclair Jenny worked for 2½ years in the Personnel Department of Motorola Ltd. She has also worked for Macmillan Publishers and Lansing Bagnell Ltd.

Massachusetts MA 02114, USA**

Tel: 0101 617 7424826

Telex: 230951074

Maggy Bruzelius

BA Political Science, MBA Marketing

US office

Maggy is responsible for all aspects of the US operation. Her work varies from helping to solve daily problems to long-term operations efficiency and market planning.

Before Maggy joined Sinclair she worked for Polaroid and Advent Corporations.

Beth Elliot

Technical Advisor/Hardware Department:
US office

Beth handles all incoming telephone calls to the Boston office and is responsible for mail sorting, handling and distribution. Telephone calls cover customer queries on ordering & shipping, and technical data revisions. She also deals with incoming technical inquiries and spare parts requests and maintains the technical correspondence records and the spare parts inventory.

Mary Reinman BA (Hons) English

US Public Relations Manager/Boston

Mary is responsible for Sinclair's public relations and publicity in the US. She joined Sinclair in May 1983, after handling our account at our Boston PR agency for over two years.

Having spent the summer in our London offices assisting Bill Nichols with a busy period of product introductions and corporate announcements, Mary is now back in Boston setting the scene for new imports from Sinclair.

Sinclair QL Preservation Project (SQPP)

On January 12th 1984 Sir Clive Sinclair presented the Sinclair QL Professional Computer in a typical Sinclair-extravaganza type launch event at the Intercontinental Hotel, Hyde Park Corner, London. This was exactly 12 days earlier than Steve Jobs presented the Apple Macintosh.

The QL is a very good example of an innovative, stylish, powerful and overall underestimated product and ecosystem. On one hand it failed in the market but on the other hand it influenced many developments which ended in many of today's computing devices.

Check out the website <https://sinclairql.net/> – The semi-official website related to the Sinclair QL Professional Computer. **QL forever!**
